

## Economic Value of Systems and Services

**We Lay the Foundation for Successful Patient Access and Reimbursement by  
Continuously Demonstrating the Value of Our Systems and Services**

## Procedure Recording and Medical Content Management

## Benefits

## Improved Security by Ensuring Patient Privacy and System Integrity

## Hospital-Wide Medical Content Management

# Quick, Remote and Mobile Access to Videos and Images from Anywhere

- VaultStream is built on **nCare, the compact, mobile and user-friendly documentation solution** that can be deployed nearly anywhere.
- The hospital-wide medical content management solution, VaultStream, enables users to store, manage and share\* full HD clinical images and videos across departments. This **eliminates information silos, reducing the need to reexamine a patient, and possibly reducing costs.**
- Increased operational efficiency with automatic background recording and storage efficiency\*\* (EasyPost).
- **Enhanced imaging workflow** with fast creation of presentation-ready videos for teaching/congresses (cutting/voice-over in EasyCut).

\* Integration of HIS with HL7, and PACS with DICOM (video and images) are supported. \*\*By adjusting video clips before sending to PACS/ VNA.

## Value Dimensions

## VaultStream Provides a Number of Values for You and Your Staff

# Safety

## Patient and Staff Well-Being

- Hospital-wide image and video libraries with centralized, secure storage.
- Increased confidence in procedure recording.
- Security best practices in multiple aspects.\*\*\*

## Efficiency

## Process and Workflow Management

- More efficient storage with adjusted video before submission to PACS.
- Prevention of missing footage of patient records.
- Easy and quick access to data.

# Economics

## Cost and Cash Flow Management

- Scalable and flexible.
- Lower license costs on incumbent IT systems with single interface from HIS/ PACS to VaultStream.

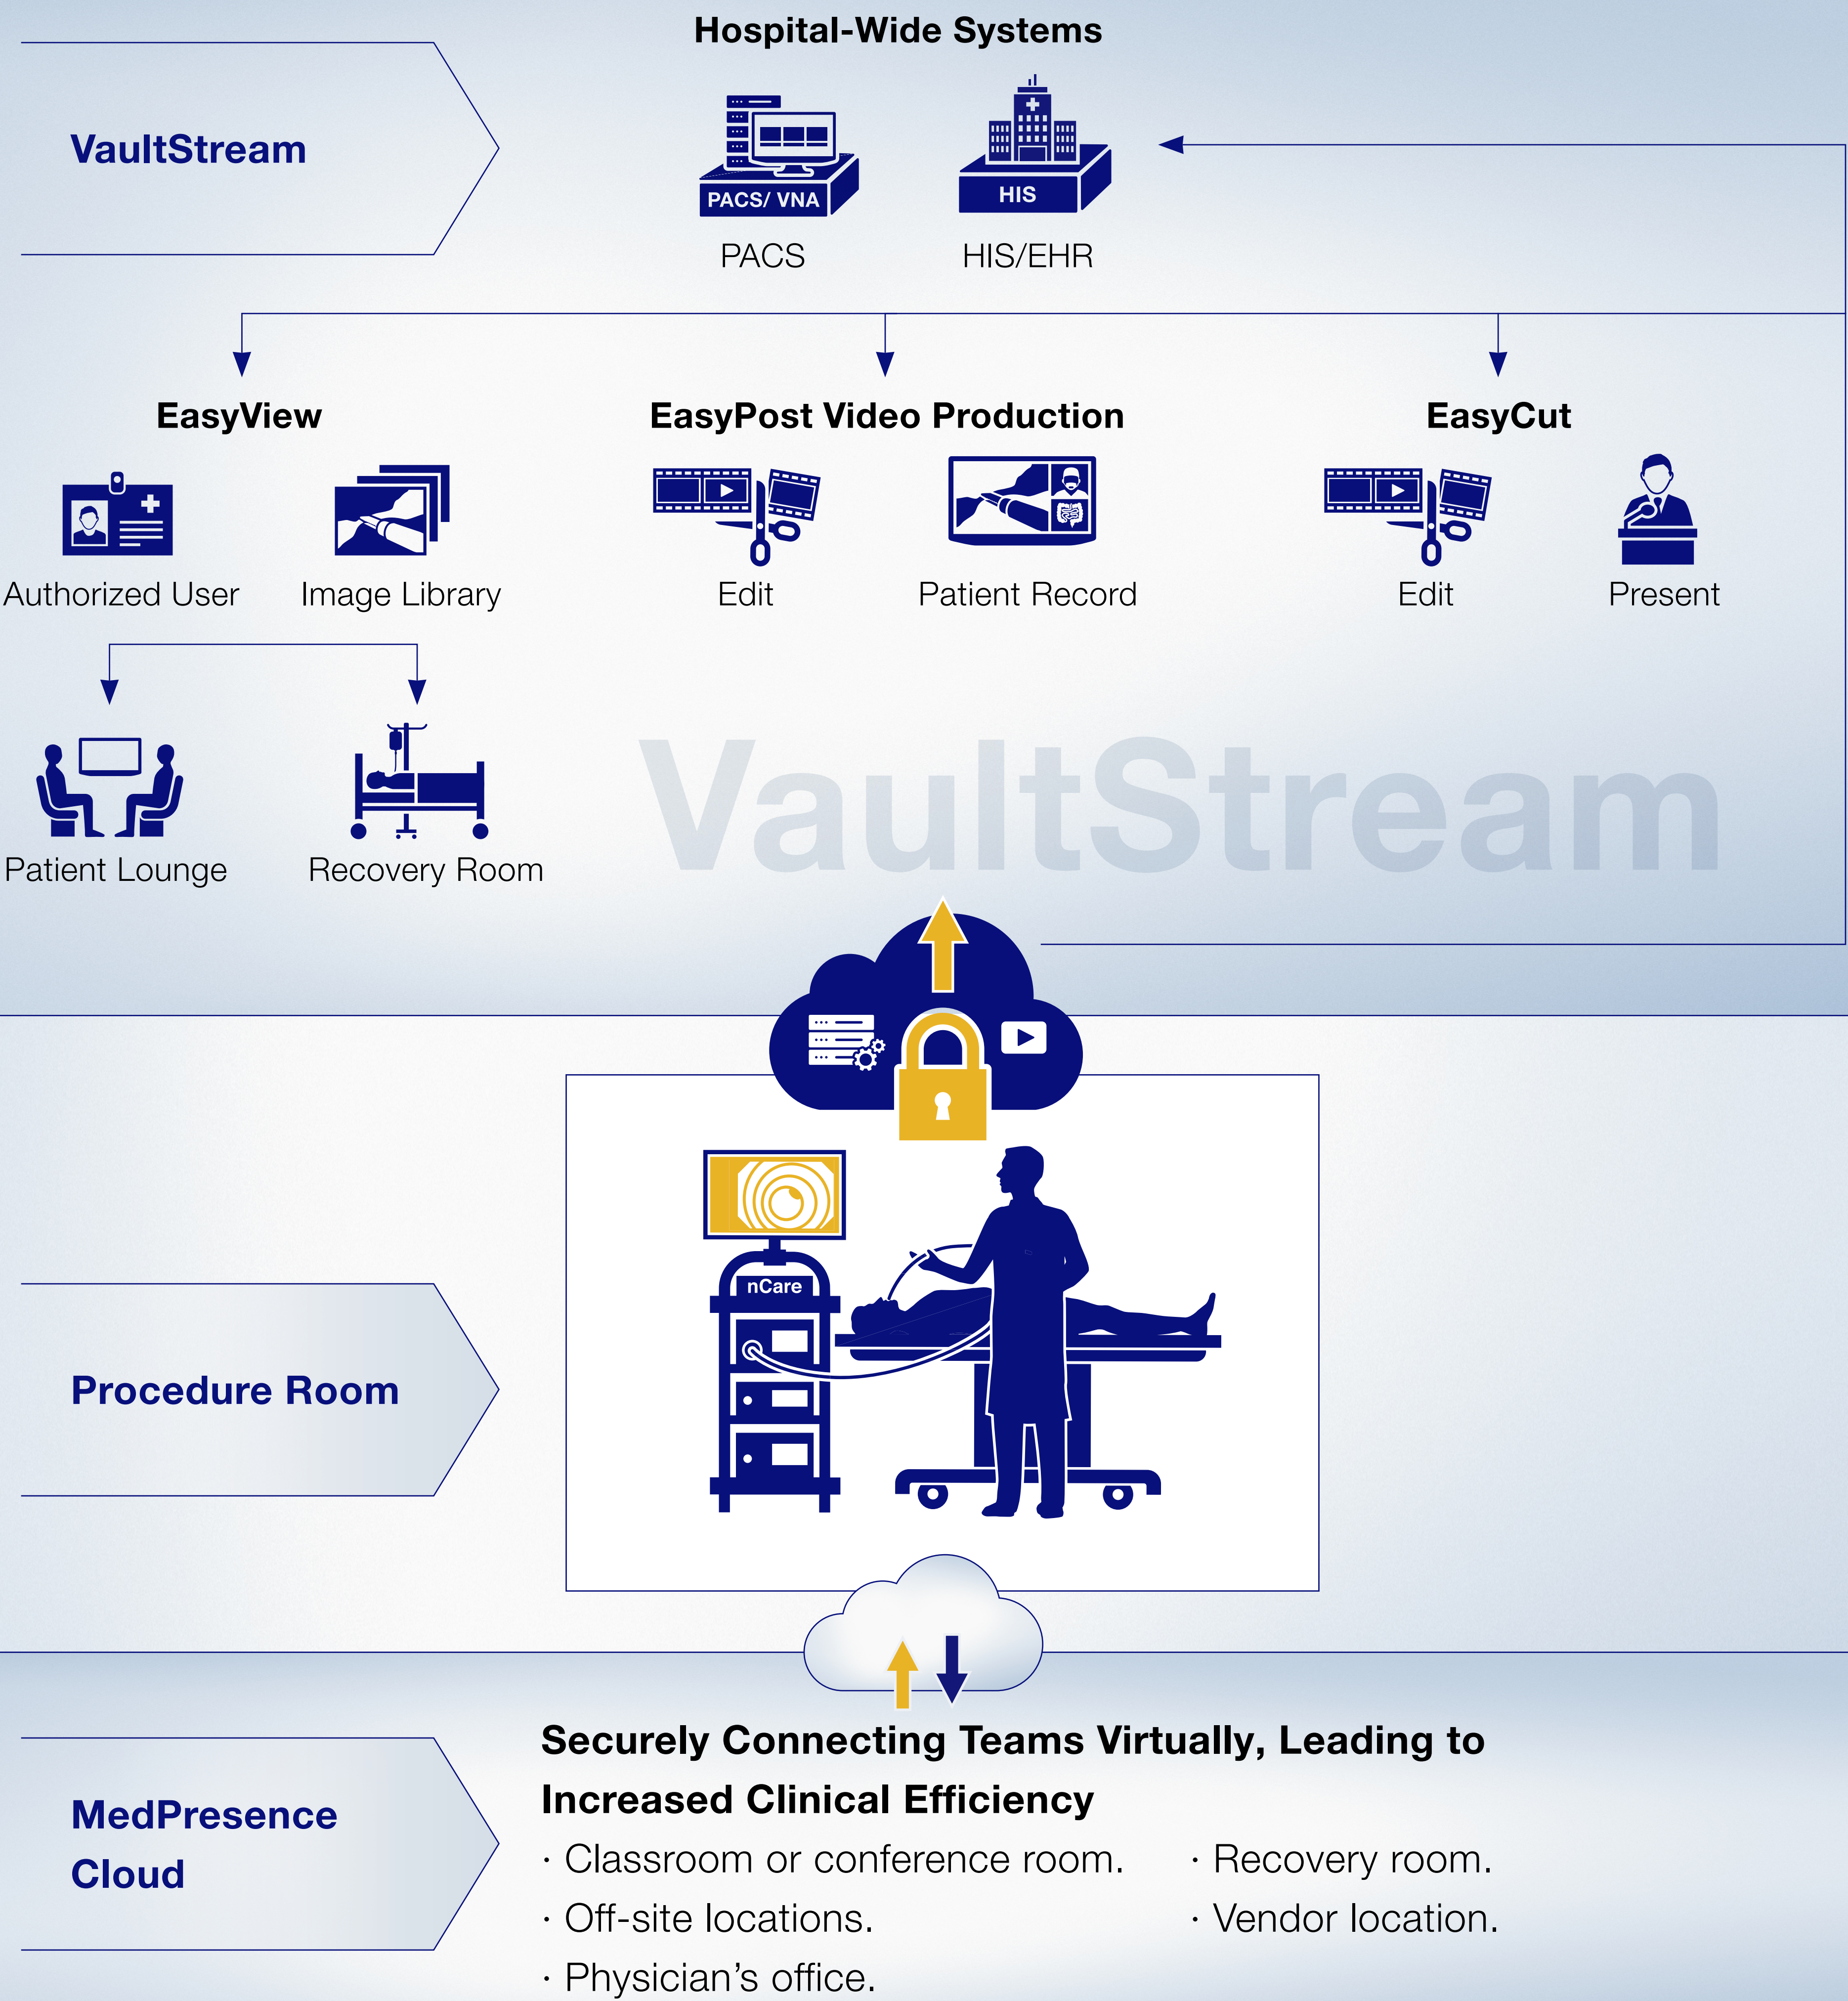

- \*\*\* E.g., authentication management, authorized access control, security and virus definition updates and secure connection protocols.

## Value

# nCare and VaultStream

## Procedure Recording and Medical Content Management

# nCare and VaultStream
