Powerful dual-channel performance

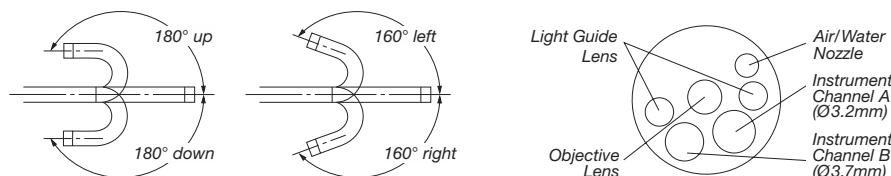

Suction capability & powerful treatment with two independent channels: EVIS EXERA Video Colonoscope CF-2T160I/L

CF-2T160I/L

- Dual channel design, with a 3.7 mm diameter channel for suction, and a 3.2 mm diameter channel for insertion of an Endo-Therapy accessory, ensures powerful suction capability and allows both channels to be used for Endo-Therapy accessories.

- 3 mm minimum depth of field for close-up observation.
- Extra-wide 140° field of view allows easier observation of a wider area of the site.
- 13.7 mm outer diameter insertion tube.
- Compatible with laser probes for expanded treatment versatility.
- Fully compatible with the CV-160/145/140/100/E.
- Scope ID function stores individual scope information and displays it on the monitor to facilitate endoscopy suite management.
