

Economic Value of Systems and Services

**We Lay the Foundation for Successful Patient Access and Reimbursement by
Continuously Demonstrating the Value of Our Systems and Services**

MedPresence

Securely Connecting Teams Virtually, Leading to Increased Clinical Efficiency

Benefits

Efficient Problem-Solving and Increased Productivity

End-to-End Security and Secure Data Storage*

Optimized Infection Control by Limiting Physical OR Attendance¹

- The virtual collaboration software MedPresence is built on **nCare, the compact, mobile and user-friendly solution** that can be deployed nearly anywhere.
- Peer-to-peer collaboration provides access to external experts and their opinions, supporting **well-informed decision-making** and might result in **improved medical treatment practices**.
- Utilizing live or saved MedPresence sessions to **train, educate and to improve procedural techniques. This also reduces the need for additional streaming providers.**

Value Dimensions

MedPresence Provides a Number of Values for You and Your Staff

Safety

Patient and Staff Well-Being

- Improved adoption of new surgical techniques.²
- Optimized infection control.¹
- End-to-end encryption*.
- Peer-to-peer collaboration.

Efficiency

Process and Workflow Management

- Session access only for authorized participants.**
- Efficient problem-solving and increased staff productivity.
- Virtual access to technical support may reduce OR downtime.

Economics

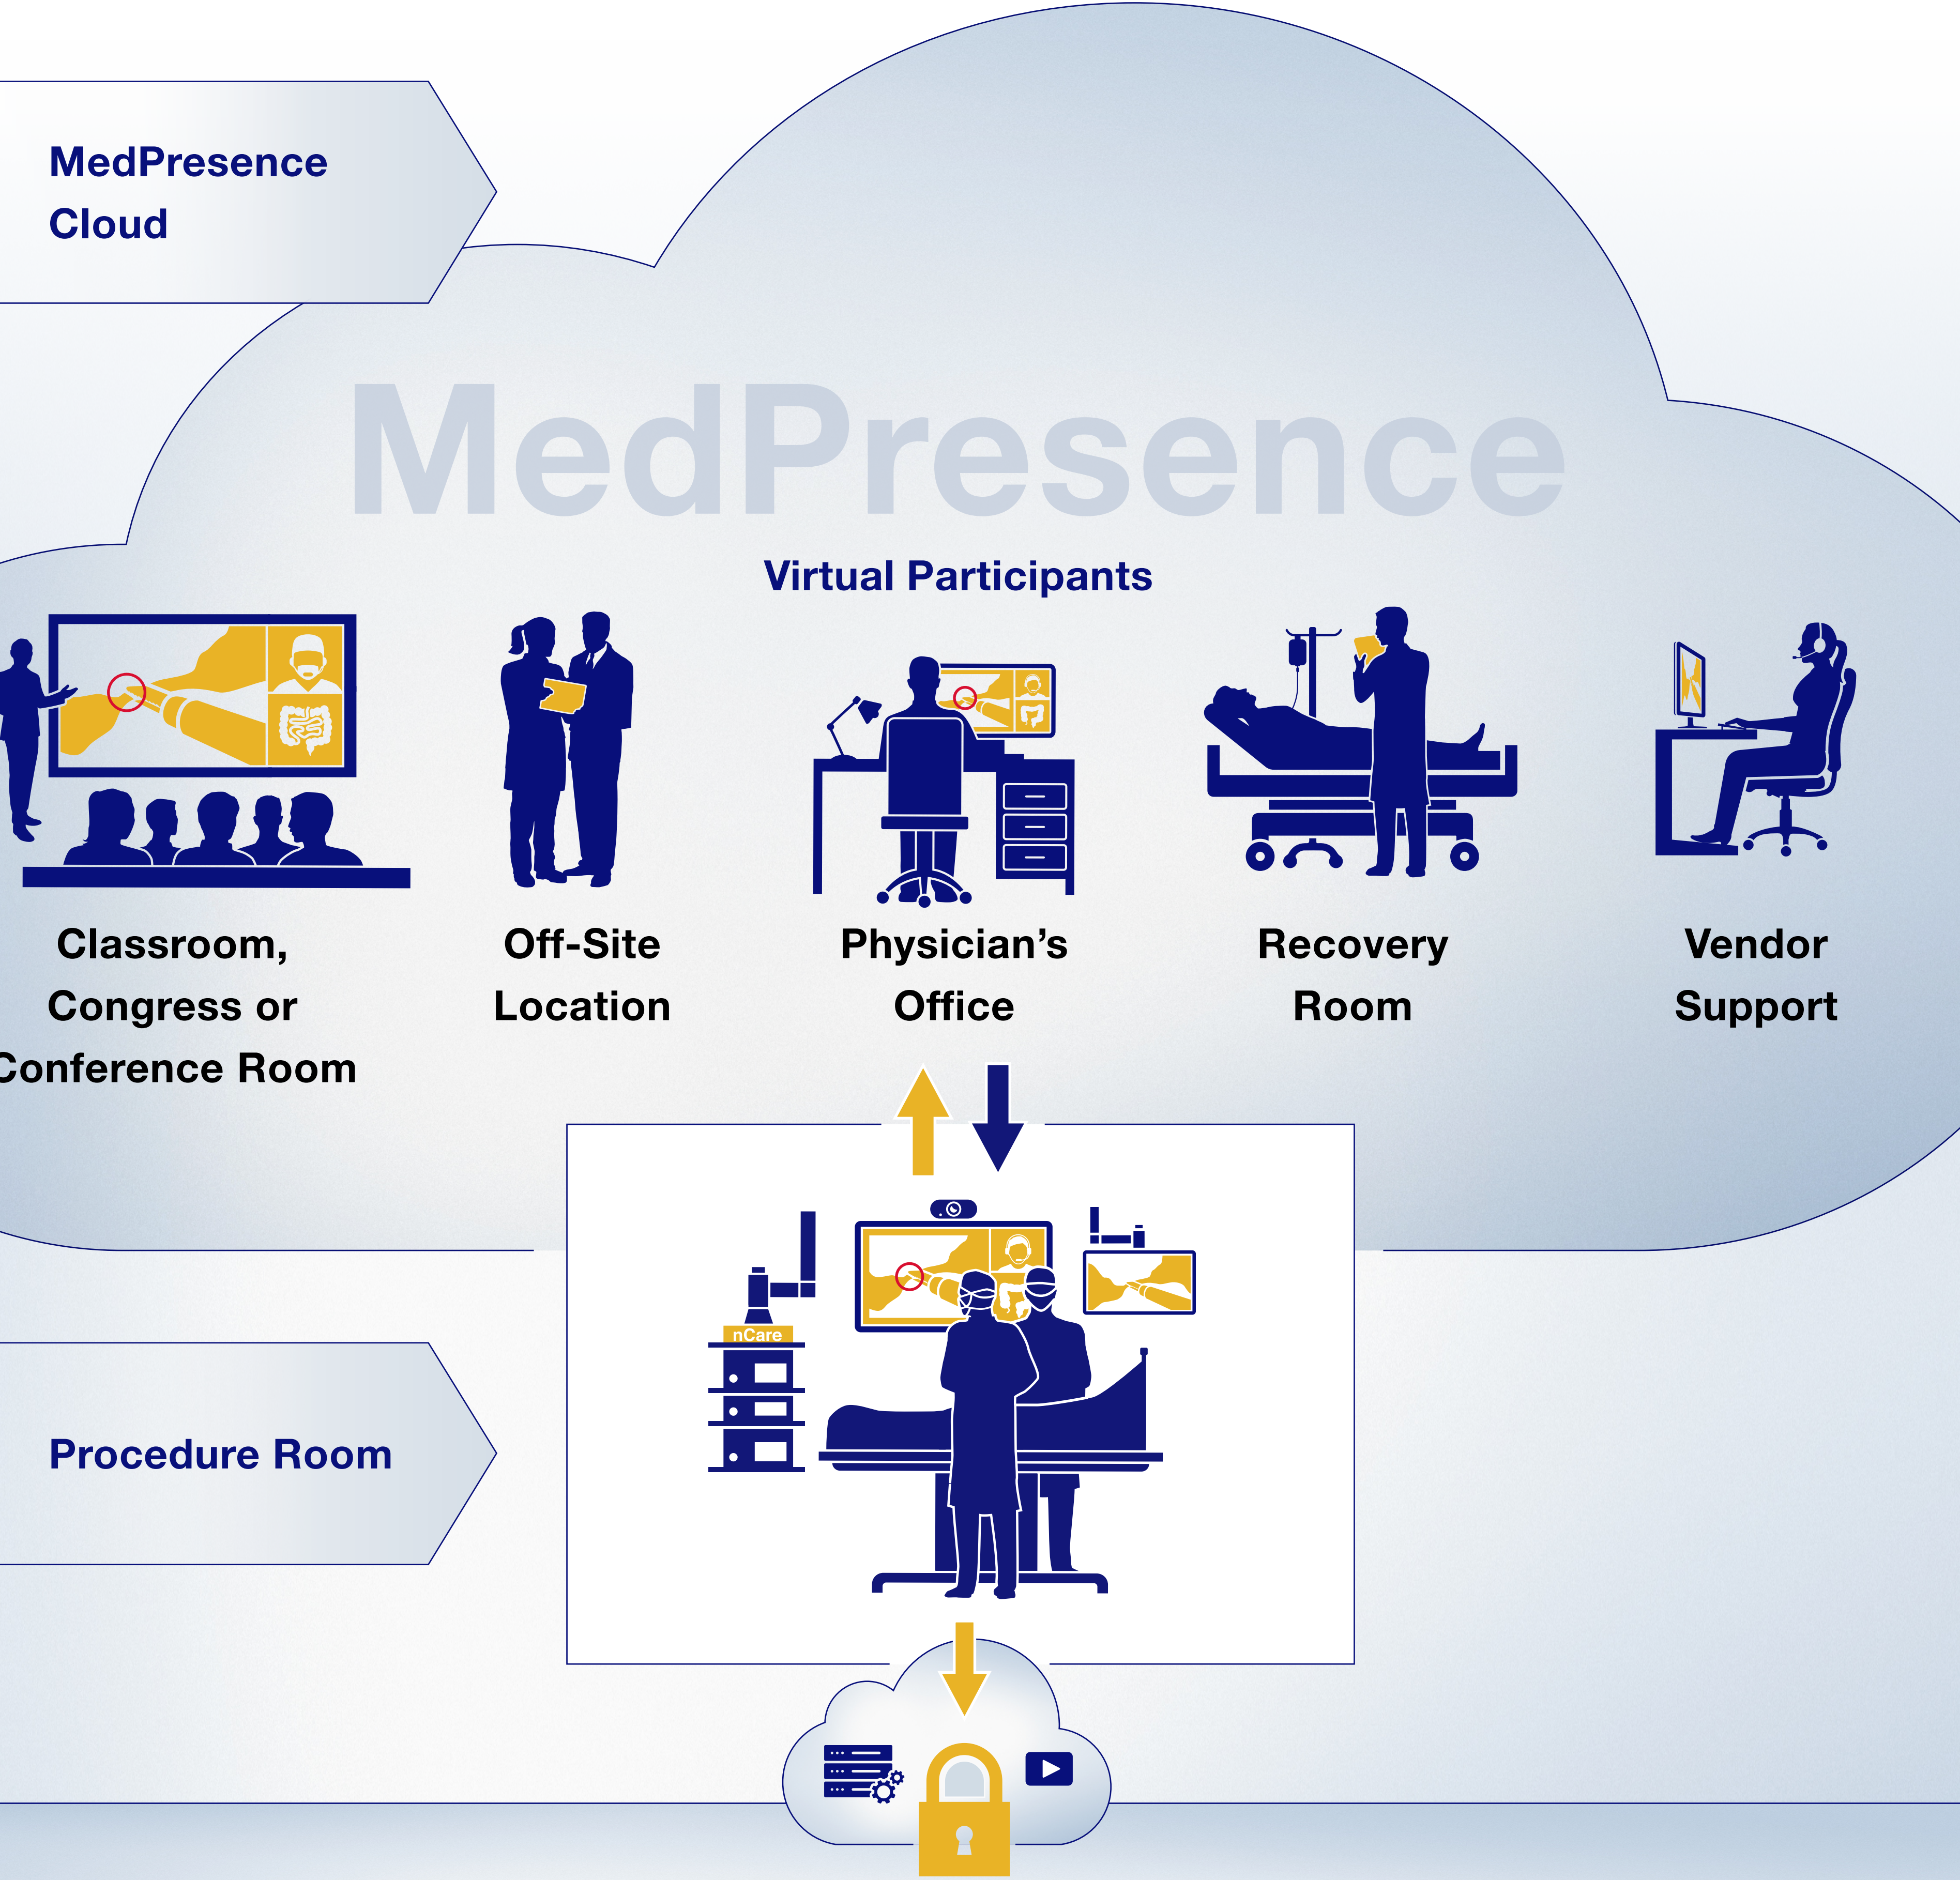

Cost and Cash Flow Management

- Shorter surgery time and hospital stays with mentoring³.
- Reduced liability and costs associated with patient infection and longer lengths of stay.⁴
- Reduced travel costs.

Value

MedPresence

Securely Connecting Teams Virtually, Leading to Increased Clinical Efficiency

Procedure Room

VaultStream

Secure, Intuitive, Anywhere
Procedure Recording and Medical Content Management
• Hospital-wide integration with PACS and HIS.
• Featuring EasyView, EasyPost Video Production and Easy Cut.
